STONY PLAIN, ALBERTA, THURSDAY, NOV. 8, 1928.

Whole Number 431

Here and There

(1667) — Employment officials at Regina state that out of the 4,000 British harvesters brought to Saskatchewan, at least 75 per cent will remain in the West to become permanent Canadian citizens.

A 700-pound sea cow was shot the other day on the shore of Sea Cow Pond, Prince Edward Island and which once swarmed with these gregarious, aquatic mammals but which are now a rarity. The animal was bought by a Summerdale manufacturing concern which used the hide for leather, the flesh for fox meat and the fat for lubricating oil.

A wool pool in Alberta is now a possibility. Premier Brownlee met a number of representatives of the industry in this province the other day and the subject was opened up in a preliminary way. It will likely come before the executive council for further consideration in the future. The Government being interested in all co-operative efforts by way of advising and encouraging.

The Department of Public Works, at Ottawa, will shortly invite tenders for the first part of the public undertakings, designed to make Prescott, Ont., the Government terminal for lake traffic. The ultimate outlay at Prescott is estimated at approximately \$5,000,000, covering rail facilities, docks and elevators. It is understood that plans are now being prepared for the railway layout in which both the large railway companies are concerned.

The Lord Nelson Hotel, containing 200 rooms and decorated in the Georgian style, has just been opened in Halifax, Nova Scotia, facing the city's beautiful Botanical Gardens. The opening ceremonies were marked by a dinner given by the Board of Trade to E. W. Beatty, chairman and president of the Canadian Pacific Railway. Up to date in every particular and quietly and tastefully decorated in the period of design recalled by its name, the new hotel will fill a long felt want in the province.

Snow and dog teams are lacking in "His Destiny" a seven reel film produced by British Canadian Pictures Limited of Calgary, stated Guy Weadick, general manager of the company. The mountain scenes shot around Banff and Lake Louise are the finest backgrounds possible for a motion picture, he said. The Governor General and Lady Willington appear in the part of the Calgary Stampede, and 800 horses are used in a round up scene in this all Canadian film.

An interesting and remarkable feat in railroad engineering is now being effected on the main line of the Canadian Pacific Railway near Toronto. Span by span the old steel bridge built in 1888 is being dismantled and replaced by heavier girders resting on new concrete piers without causing any interruption in traffic. During a six hour interval in the train schedule during the daytime tracks and ties are ripped up, an old span removed, and a new section weighing 45 tons is swung into place by a great crane especially constructed for the purpose. The short gap left between the new and the old spans is temporarily filled by a steel girder, new ties and track are laid by gangs of workmen, and the bridge is open to trains again. Operations are then made to make the next of the thirteen spans.

Jac. Ursel's Appeal Case.

The Jac Ursel Jr. appeal case, in which Mr Philip Schwindt is interested, came up again, on Monday last, in Edmonton, before Hon. Judge Crawford. P. Q. Thomson, K. C., for defendant; J. J. Frawley for prosecution. Apparently counsels had reached an agreement and the judge reduced the penalty to \$20. This is the case on which Williams P.M. adjudicated some time ago and which Ursel appealed.

Hei-Ho for the Buccaneers.

The Edmonton dailies of Friday last contained a very graphic account of what was described as the most sensational daylight hold-up in the City's records.

The act was staged out near the Stockyards, and by some onlookers was thought to have been a movie scene being taken.

The whole affair is a replica of the old Nick Carter or Dick Densley type of penny dreadfuls now in the discard.

An immigrant was taken for a motor joy ride to the packing plant district, and on their return overtook two walkers who were given a lift. The Henry being overloaded, it was probably thought advisable to lighten the cargo by disposing of a passenger, and the choice fell on Mr Immigrant. Walder claims he was struck over the head to render him unconscious—in fact he counted a quarter-dozen strikes right on the bean—but even then he refused to enter dreamland, no doubt the monkey wrench (or whatever was used) being damaged in the process.

By this time the immigrant was slightly peeved and gave his assailants a fistful argument, on the run, the scrap being transferred to terra firma. The immigrant being gifted with bush cutter's muscles, had made such good headway along this line as to convert his defensive into an active offensive, whereupon the motor car crew started running for help. They were overtaken by Walder, assisted by a H.B. driver and several others.

The story is of interest to us, as several young chaps of this district were held as material witnesses, etc.

LOCAL NEWS.

Rev Boettcher was a Sunday visitor in Stony.

Mr A. E. Michael made a business trip to Entwistle this week.

Following a very successful sale by Auctioneer M. Zucht, on Mr Val Kulak's farm last Friday, Mr Kulak and family left on Saturday for Vancouver, where they will take up their residence. Relatives and friends of the family were at the depot to give them a hearty send-off and wish them good luck in their new home.

The Women's Institute will meet at the home of Mrs Alton Wed. Nov. 14 at 3 p.m. All ladies are invited, as an excellent program has been arranged.

An excellent report of the Halloween celebration Friday evening has unavoidably been crowded out of this week's issue, the Editor regrets to state.

The Family Herald and Weekly Star of Montreal with its wonderful improvements is now recognised as the greatest money maker for farmers in Canada, while its magazine is a gem unrivalled.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M. M. Mecklenburg, eye specialist, 10218 101st St., Edmonton.

M. Mecklenburg, Optician, will be at the Royal Hotel, Stony Plain, on Friday and Saturday, Nov. 9 and 10.

Ulmer—Goerz

A quiet wedding was solemnised on Tuesday, Oct. 30, at the St. Matthew's Lutheran Church (Missouri Synod), when Miss Carrie Goerz (the daughter of Mr Hy Goerz) was united in marriage to Mr Jac Ulmer (son of Mrs Margaret Ulmer of Stony Plain district). The ceremony was performed by Rev E. Eberhardt, pastor.

The happy couple left on Sunday's midnight train for Vernon, B.C., where they will take up their residence.

Poppy Day.

To commemorate the signing of the armistice and in memory of the 60,000 soldiers who lie beneath white crosses in Flanders, the Institute members will hold a street sale of Veteran Poppies on Sat. Nov. 10. These poppies have been made by disabled ex-service men of Alberta. Proceeds of the sale will be for the relief of ex-service men and their dependents, care of sick in hospital, the burial of indigent ex-service men. The Institute appeals to the community to support the project by buying a Poppy.

LOST, One Sow, wt. 370 lbs.; all white. Reward on return to John Schmigelaki, Blueberry.

The Menace of Communism

The Sixth International Communist Congress held in Moscow this year declared its avowed policy "to concentrate Communist propaganda on the young people of the world," not on the young people of Russia, or even of Europe, but of the world.

Has that declaration any meaning for Canada? Is it one that the people of Canada need pay any attention to, or in regard to which they should take action?

Communism thrives where there is oppression, injustice, extreme poverty, lack of employment resulting in enforced idleness, and, inevitably arising from these conditions, general discontent. Satan still finds mischief for idle hands to do, and there is nothing quite so mischievous in the world today as Communism and its many perilous doctrines.

Communism, therefore, found fertile ground in Russia owing to the centuries old oppressions and injustices of the old Tsarist regime, during which the most abject poverty and ignorance continued among the masses of the people alongside an aristocracy rolling in wealth and indulging in all forms of extravagance and luxury. The added sufferings, sacrifices and horrors of the Great War were all that was necessary to set the country afire and provide the Communists with the opportunity they had long been awaiting.

In Canada, unlike Russia, there is no oppression of the people; justice is not tolerated, and has only to be exposed to be remedied; cases of extreme poverty are rare indeed, and, when found, sympathetic governments, organizations and people respond to the call of need; work, as a rule, is available to all who are willing to work, and seasons of unemployment are but temporary and not, as a general thing, the overwhelming mass of the people are happy and contented. The soil of Canada is, therefore, not fertile ground for cultivation by the Communist agitator.

Nevertheless, Canada is not being ignored by the Communists of Russia in their visionary attempt to grasp world power through the overthrow of all institutions of law and order, all religions, the destruction of all present forms of government and the confiscation of all property and other rights of individuals. The Communist will never be satisfied until he brings about a reign of terror and a condition of chaos in all countries similar to that created by him in Russia and in certain portions of China. Wherever there is trouble, whether political, social or economic, there the Communist sees his opportunity, and in the past Canada has not been free from manifestations of Communist intrigue and activity. And the Moscow authorities stand ever ready to finance and otherwise support all such efforts.

The Communist leaders realize, however, that they cannot make much headway with the adult populations of Canada, the United States, and the self-governing Dominions of the British Commonwealth. Hence their openly avowed intention to concentrate their propagandist activities on "the young people of the world."

And therein lies the danger to Canada. If in their youth while their minds are plastic and open to receive impressions, and before their characters are formed, the boys and girls of Canada, or of any country, can be inoculated with the virus of Communist disbelief in God and religion, Communist repudiation of all accepted ideas of morality as merely man-made restrictions on individual liberty, Communist rebellion against all constitutional systems of government and courts of law and justice, and Communist doctrine that there is nothing good but everything that is bad in all countries except Russia where, for the time being, Communism holds the whip hand and wields a lash over everybody who dares to voice even the mildest criticism of its methods—If, we say, the youth of Canada can be infected with such ideas, the very foundation of all that we revere and hold dear in Canada today are being very seriously undermined.

Communism is conducting such a campaign in Canada at the present time. The orders of the International Congress, at Moscow, are being carried out to the letter. Communist day schools and Soviet Sunday schools are being conducted, the most pernicious literature for children is being circulated, and every conceivable method is being used to lead the youth to the adoption and follow-up, in an age when there is a youthful tendency to scoff at religion as old-fashioned, God, the church, and all religion is openly as well as covertly attacked. Modern youth is encouraged to "go the limit" in throwing off the conventions and restraints of the past, and are ridiculed if they hesitate to do so. The sanctity of the home is laughed at, and parental, as well as all other forms of authority regarded as forms of slavery and a denial of the rights of youth.

In setting their faces sternly against this disruptive thing, let the Canadian people see to it that no oppression, no injustice, no suffering through poverty or because of lack of work, is allowed anywhere in the Dominion. Let the churches forget their minor differences in doctrine or in forms of worship, and instead of fighting each, unite their forces in order that effective warfare may be waged on a system which, if it is not destroyed, will ultimately destroy all churches and all religion, and, in destroying these great bulwarks, destroy also the home and the state, and lead to the damnation of the individual.

When Pain Comes

What many people call indigestion is really a pain in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 60 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude medicine again when you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Canadian Arctic Expedition

Well On the Way To Frozen North, Equipped With Radio

An example of the use of Canadian products by the Canadian Government in important scientific and exploration work comes with a report of the departure from Ottawa of the Canadian Arctic Expedition, organized by the Northwest and Yukon Branch of the Canadian Department of the Interior.

The expedition was under the direction of Major L. T. Burwash, well known Canadian Governmental explorer, who has spent much time in the far North. Press reports this summer indicated that Major Burwash was off on one of his solitary jaunts, but the general Canadian Arctic Expedition, according to information from Toronto, left that city in three parties.

All three parties were equipped with Eveready radio "B" batteries on the sets supplied for the expedition by this Department of Marine and Fisheries. Word has reached headquarters of the Canadian National Carbon Company that all branches of this Department are using Canadian National Carbon Company products.

Reports this summer on Major Burwash's activities indicate he was engaged in exploration of unusual scientific interest which promises to yield also an abundance of romance. He planned a jaunt of 5,000 miles by railroad, boat and dog team leading him to the magnetic pole, the trip being planned partly as a hunt for relics of the Arctic expedition of Sir John Franklin which ended in disaster in 1845.

Rumor sitting back occasionally from the frozen North has told that one of Franklin's two ships, the Erebus and the Terror, may be sighted in the Arctic Ocean near King William Land or Boothia Peninsula. If the ship can be found the Canadian Government will be enriched by the recovery of old relics and records believed to be aboard her.

Major Burwash also planned to investigate conditions among the Eskimo north of Montreal and Keewatin and the proposed tractor-train route from Wagner Bay on the West Coast of Hudson Bay to Cockburn Bay south of King William Land.

One of the primary purposes for the expedition assigned by press reports is to determine the westward shift of the magnetic pole so that mariners' charts may be corrected.

WOMEN OF MIDDLE AGE

Need Rich, Red Blood To Maintain Good Health

After passing the age of forty every woman has reason to grow anxious about her health. This time of trial, with its attacks of faintness and fits of depression, its often violent headaches and back pains is rightly dreaded by women; but if reasonable steps are taken to safeguard the health, no serious ill-effects will arise. At this turning point in life Dr. Williams' Pink Pills have given a helping hand to thousands of suffering women who were fighting a hopeless battle against poor health and waning strength.

The very best help for any woman of middle age is the health help given by Dr. Williams' Pink Pills. These pills reinforce the blood supply, enriching and purifying it. In doing this they nourish the starved and overtaxed nerves and give new strength and vitality to the whole system. By this natural process Dr. Williams' Pink Pills completely displace the pains and weakness, and a better, happier condition of health and spirits arises.

Every woman of middle age should take advantage now of the wonderful health-help of Dr. Williams' Pink Pills. They are sold by all medicine dealers or will be sent by mail at 50 cents a box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Customer: "How long will this pair of patent leather shoes last?" Clerk: "Until the patent expires."

Regulate On the Farm—Every farmer and stock raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by cold it far surpasses anything that can be administered.

The only thing some people keep up is uphillness.

Famous Holstein Herd Provides High Bred Cattle For Western Development

With the dual object of producing supplies for its own use and to provide high bred cattle for Western development, the Canadian Pacific Railway established about eighteen years ago a herd of Holstein cattle at Strathmore, in Alberta. The foundation herd was small but even at its beginning included several cows afterwards distinguished as great producers. Since then only the best sires from ancestors of proven merit have been used. In the natural course of events, these sires were bound to bring about a wonderful improvement in the parent herd.

Taking as its motto "High production with show ring quality" and insisting that the Strathmore Farm be a paying proposition, the Animal Husbandry Department of the Canadian Pacific has consistently pursued the policy of breeding a herd of uniformly good quality and distinctive Holstein type. Special attention has also been devoted to obtaining high milk and butter fat production.

Strathmore herd now comprises

six Grand Champions, and fifteen Junior Championships fall to its lot. "Strathmore Vee-man Fairchild"—181846—a two year old heifer bred on the farm, was Grand Champion female at Edmonton, Saskatoon, Regina, and again at Vancouver. She is the first female bred on the prairie to win this award at a Western "A" Circuit show. Her sire and her dam and three grandparents were all born on the Strathmore Farm.

The Carnation Milk Company of Seattle has the finest herd in the world—none but the finest cattle are considered. A few years ago they started the breeding world by paying \$106,000.00 at public auction for a Holstein bull. And they wanted to add little Strathmore Vee-man Fairchild—181846—to their herd. So after the Vancouver Exhibition, she changed her country and her colors and is now being shown with the great Carnation herd at the greatest United States cattle show. She won first at the Kentucky State Fair, and at Fares, Nashville, and Chattanooga.

Chromite Mines

Canada's principal chromite mines are situated in the Colerain district, Quebec, and are regarded as capable of producing large quantities of ore.

High Quality of 1928 Wheat Crop Revealed By Dominion Grain Research Laboratory Tests

Welcome To British Farmers

The Hundred Cottage Plan Is Meeting With a Good Reception

The farmers of Western Canada have accorded an unmistakable welcome to the 100 Cottage Plan of the Canadian Pacific Railway—the scheme jointly arranged by Lord Lovat, British Under-Secretary of Dominion Affairs and the railway's Department of Colonization and Development. As illustrating the cordiality of welcome to the British farmer families who will occupy these cottages, until graduating as self-sufficient farmers "on their own"—C. A. Van Scoy, C.P.R. Superintendent of Colonization here, says that applications from the Canadian farmers for these cottages greatly exceed the proposed supply. The present plan is to have 20 of these cottages in Manitoba, 45 in Saskatchewan, and 35 in Alberta.

To persons who have preached the need of precautions against a lowering of the standard of quality of Canada's wheat, a report just issued from the Dominion Grain Research Laboratory in Winnipeg will be reassuring. Some months ago Dr. Robert Magill, Secretary of the Winnipeg Grain Exchange, said that the wheat crop of 1927, though very satisfactory from the standpoint of quantity, was not so satisfactory from the standpoint of quality. He asserted that of the wheat grown in the Province and inspected at Winnipeg, only about 1 per cent. graded No. 1 Northern, and only 6 or 7 per cent. graded No. 2 Northern. In other words, he indicated that some 92 per cent. of the wheat inspected at Winnipeg graded No. 3 Northern or lower. This situation Dr. Magill attributed, in part, to weather conditions in sections of the prairie region and, in part, to the class of grain planted by some farmers in that part of the Dominion. The Secretary of the Winnipeg Grain Exchange touched upon a topic that Mr. L. H. Newman, the Dominion Cerealist; Mr. G. A. Clark, the Dominion Seed Commissioner; prominent members of the Canadian Seed Growers' Association, and the directors of the Saskatchewan Wheat Pool had discussed. Mr. Newman told the Committee on Agriculture of the Dominion House of Commons a year or more ago and the Saskatchewan Pool directors later asserted that some farmers in Western Canada, in the hope of attaining higher acre yields or of reducing their risk of losses from rust infections, had been sowing varieties of wheat that were not so desirable as the standard varieties from the standpoint of milling and baking qualities.

The report now issued from the Dominion Grain Research Laboratory reveals the results of tests of the milling and baking qualities of wheat of the crop grown this year. The tests were made with samples of grain from all the western provinces, secured from the office of the chief grain inspector. Those samples were regarded as fairly representative of the whole western crop. The report, prepared by F. J. Richard and T. R. Aitken, says that the moisture content of the wheat in all grades is low and that to date very little tough grain and no damp grain has appeared on the market. The weight per bushel of each grade of wheat, states the report, is higher than that of last year; the protein content of the wheat is higher in each grade; the quality of the protein is superior, particularly in the lower grades, to that of last year, and the baking quality of the flour made from each grade is decidedly superior to that of last year. The high milling and baking quality of the commercial grades is attributed to the fact that all the lower grades contain a considerable percentage of hard, plump, sound wheat, that frost did not occur until the wheat was nearly matured and that most of the crop was harvested under very favorable conditions. All this is very gratifying to the farmers and to the people of the country at large. Canada has gathered this year the most bountiful yield of wheat in its history. That wheat, according to the report from the Dominion Grain Research Laboratory, is of the kind that commands the readiest sale in the markets of the world—Toronto Mail and Empire.

Delightful Sports Mode

It simulates the two-piece mode with hip yoke inserted between diagonal closing bodice and smartly pleated skirt. The youthful neckline with shawl collar and sleeve bands add a tailored finish. Style No. 962 designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure, can be made of sheer tulle, patterned wool jersey, crepe satin, canton-crepe, flat silk crepe, crepe Elizabeth, printed and plain sheer velvet and wool crepe. A few seasons to join and it's finished, and made at a substantial saving. The 36-inch size requires 3 1/2 yards of 40-inch material with 1/2 yard of 40-inch contrasting. Price 25 cents in stamps or coin (coin preferred). Wrap collar carefully.

"Look here, before we fight for her let us toss for her!" — Juggad, Munich.

N. W. U. 1758

Upper left—Colony Morag McKinley—34647—Senior Sire of herd at Strathmore, Supply Farm. By many prominent Holstein breeders considered to be the best in Canada. Has 25 daughters with records at two years of age. Has eight daughters on test at present producing an average of 70.2 milk per cow per day. This bull was many times senior and Grand Champion on Western Circuit.

Upper right—Strathmore Vee-man Fairchild—181846—Two year old heifer bred at C.P.R. Supply Farm, Strathmore. Grand Champion female at Edmonton, Saskatoon, Regina, and Vancouver, 1928. Sold at close of Vancouver Fair to Carnation Milk Farms, Seattle. She is the first prairie bred female to be adjudged Grand Champion at a western show.

Lower—Strathmore DeWinton Matchless—71977—Junior Bull, Calif., Strathmore McKinley Fairchild Wayne—70882—Senior Bull, Calif., Colony Koff McKinley, 31st—64799—Senior yearling bull included in Strathmore Show herd, 1928.

over six hundred head of high quality purebred Holsteins, the largest herd of dairy cattle in Canada.

To make a record performance a cow must give over 12,500 pounds of milk in 365 days, Strathmore Farm has 140 record performances to its credit, the highest being 24,500 pounds of milk with 968.25 pounds of butter. There are now on test several cows which will equal this, and at least two who will set a new standard of production.

Perhaps the greatest stimulus to dairying in Western Canada is given by the "A" Circuit Fairs. Cattle are shown here, owners and herdsmen meet together and exchange opinions and the smaller farmer reaps a large share of the benefit therefrom. The herd from Strathmore has been exhibited at Brandon, Calgary, Edmonton, Saskatoon, and Regina for years. This year a vigorous representation was sent out, particularly as regards young animals. After the "A" Circuit Fairs the herd participated in Vancouver, Victoria and New Westminster shows.

At these eight shows the Strathmore herd won one hundred first prizes, two thirds of all those offered,

being Senior and Grand Champion at the latter show.

Two young bulls, Strathmore McKinley Fairchild Wayne—70882 and Strathmore DeWinton Matchless—71977—were junior and reserve junior champions at each of the prairie shows. At Victoria and New Westminster, Strathmore McKinley Fairchild Wayne was senior and grand champion male, while Strathmore DeWinton Matchless won junior and reserve grand championship. Competition at these Fairs is keen, with Holsteins from famous herds in Ontario, from the Colony Farm herd and others being shown. With the exception of the Junior herd sire, all the cattle shown were bred on the Strathmore Farm. All their dams were bred there and are still profitable producers in the herd.

Of the many bull calves born annually at Strathmore, only those are reared for sale that are from dams which grade either "Gold Medal" or "Excellent" or are from dams not themselves in either of these grades but having an R.O.P. record of at least 20,000 pounds of milk in a year. All other bull calves are slaughtered at birth.

Feeding Steers Loose Or Tied

Steers Fed In Loose Pens Make Better Gains

Steers feeding for the market in loose pens made better and more economical gains at the Lennoxville, Quebec, Experimental Station, than those fed tied in the stalls. During a period of nine years in which these methods of housing have been under test, the cattle running loose gave the best returns in all but two seasons. Last year the steers tied in stalls made slightly better gains amounting to 1.99 pounds per steer per day at a cost of 7.10 cents per pound of gain as against 7.75 pounds per steer per day at a cost of 8.09 cents a pound for those running loose in the pens. From his experience with these tests the superintendent of the station, in his report for last year, published by the Department of Agriculture, at Ottawa, reports that steers fed in loose pens make the more economical gains taking one year with another.

London claims the largest ice skating rink in the world in Richmond Ice Skating Club that will open this fall. The skating area is said to be 4,300 square feet.

MOTHER OF TWINS HELPED

Restored to Health by Taking Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was for ailed enough to attract its ex- cience, for in all these countries it is on sale and in demand.

and I am fine, do my work without trouble and am gaining in weight and strength. I will gladly recommend the Vegetable Compound to anyone."

N. W. U. 1708

WORLD HAPPENINGS BRIEFLY TOLD

Robert Bell, president of the Press Congress of the World, has announced that the next session of the congress will be held at Ottawa, Ont., in July, 1922.

An all-red route around the world is seen as a strong possibility in the near future by J. A. Wilson, controller of civil aviation, who has returned after spending two months in the British Isles and Europe.

C. Lee, it is announced will succeed Chow Kuo Yen as consul-general for China in Canada following the request of the latter who desires to return to his native land after four years' residence in the Dominion.

The Rev. Reuben Archer Torrey, evangelist and Congregational minister, who was associated with the late Dwight L. Moody for nearly 20 years, is dead at his home in Asheville, N.C., in his 73rd year.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

French Launch Powerful Sub.

A powerful submarine of a new type has been launched by the French Navy. It is the Vengeur, capable of eighteen and one-half knots an hour on the surface and ten knots under water. Sixty men form the crew. The craft is 186 feet long, twenty-six feet wide and weighs 2,080 tons.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE

Baby's Own Tablets Are the Ideal Remedy For Babies and Young Children

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says:—"I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Full Representation

All self-governing Dominions in the British Empire were represented this year at the Grocers' Exhibition, which was held at the Royal Agricultural Hall, Islington, London.

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attract its ex- cience, for in all these countries it is on sale and in demand.

Canadian Mica

Practically all of the mica produced in Canada is of the amber variety (Phlogopite). Mica is marketed in the rough-cobbed state, as trimmed sheet, splittings, scraps, and ground mica. Trimming and splitting is done by hand.

"A joint bank account must be nice."

"Yes, it's a lovely arrangement. My husband deposits the money, and I draw it out."

SUNDAY SCHOOL LESSON—NOVEMBER 11

PEACE AND GOOD WILL AMONG MEN

Golden Text: "Be not overcome of evil, but overcome evil with good."—Romans 12:21.

Lesson: Romans 12:1-21. Devotional Reading: Philippians 2: 5-11.

Explanations and Comments

A Call To Consecration For Service, verses 1 and 2.—The meaning of these two long verses has been aptly expressed in these brief words: "In view of all that God has done for us, we should henceforth live for him."

The One Volume Commentary paraphrases the verses thus: God's redeeming love should be answered by the true sacrifice and spiritual, ritual service of a life of purity and self-denial and work for God. Do not follow the fashion and customs of the worldly society around you, but let your ways of thinking be so changed by the Holy Spirit that you look for and recognize God's will and love to do it.

"Present your bodies a living sacrifice, holy, acceptable to God."

"No maimed or crippled thing will be offered to God by Jew or Gentile. If we would devote ourselves to God, we must seek to it that we have a self to devote. Self-consecration is not a negative thing; it is a very positive thing. Even our Lord said in His high-priestly prayer: 'For their sakes I consecrate Myself.' Self-consecration is the most effective way in which we can serve God in this generation. That is the way in which the torch has been handed down by a long succession of runners, since the Gospel of Christ came into the world. Ask yourselves how you have been helped by others. You will find, I think, that the occasions have been most trivial, that the words spoken and the things done have been slight and unpremeditated. They have been sideglances upon the person's character, peeps into the inner life of one whose mind is kept in perfect peace because it rests on God; or one who sees God because his heart is pure. It is the sudden sting of self-reproach, the shame of the contrast, the longing to be like such a one, that sends a man to his knees as soon as he is alone. Sometimes when such a man or woman dies we learn for the first time, not without surprise, what he or she has been to many. Such persons have laid up a rich store of gratitude for being what God has helped them to be."—E. W. Lange.

Minard's Liniment Heals Cuts and Bruises.

Emma's Nakimu Caves

Near the granit of the Selkirk range of mountains in British Columbia, is one of the most remarkable series of subterranean passages found on this continent. These passages are the Nakimu Caves, in the Glacier National Park, one of the scenic areas administered by the National Parks of Canada, Department of the Interior.

Worms, by the irritation that they cause in the stomach and intestine, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

Platinum Production

Canada ranks third in importance, as a source of metals of the platinum group, after Russia and Colombia.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

The California Valley quail has been successfully introduced into such distant countries as Chile and New Zealand.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Marriage was the name of a couple who sought a separation order at North London Police Court.

A Wool Pool

Alberta Government Interested In Getting the Matter Under Way
A wool pool in Alberta is now a possibility. Premier Brownlee met a number of representatives of the industry in the province the other day and the subject was opened up in a preliminary way. It will likely come before the executive council for further consideration in the near future, the Government being interested in all co-operative efforts by way of advising and encouraging.

The diamond is the hardest substance known.

The British custom of serving 4-o'clock tea in business offices is fast "taking on" in Canada. Many Canadian, as well as British-born, executives now order Red Rose Tea for their office staffs, because it is the same quality as the finest English teas. Sold by all grocers, in bright, clean aluminum.

Radio In Canada

The total number of licensed radio stations in operation in the Dominion and on ships registered therein was 2,167,000 on March 31, 1927.

DEMAND

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin is a powerful pain reliever, it is also well known that the Tablets will be stamped with their "Bayer Cross" trademark.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Appleford Paper Products
HAMILTON, ONT.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

WILL GIVE AID TO SETTLERS FROM THE BRITISH ISLES

Ottawa. — Important announcements in regard to an increase in British assisted immigration are almost certain to follow the tour of Hon. Robert Forke, Minister of Immigration, through the western provinces.

Mr. Forke has just returned and in the course of this trip interviewed the Premiers of Manitoba, Saskatchewan, Alberta and British Columbia, in their respective capitals. He went thoroughly into the various policies now being advanced by his department singly and in co-operation with the British Government, and wherever possible, invited their active assistance.

The kind of assistance which the provinces may give is various. They may assist the Federal department in checking up the bona fides of persons within their boundaries who apply to Ottawa for aid in bringing their families out from Britain, or they may enter actively into a scheme of settlement and bear a part of the financial burden.

Mr. Forke had little to say of his trip, except that all the Premiers had been much interested in immigration problems and had promised to give the most careful consideration to the many suggestions which he had made.

There is ample time for such consideration since all the settlement work is done in the spring and early summer months, and provided the Federal Department knows how much assistance it may expect from a province by the new year, the task of arranging for the movement of the settlers can be performed.

It would appear that the provinces were more interested in boy settlement than in the policies for older persons, and it is in this field that important announcements may be made.

Mr. Forke, it is understood, put forward a proposal whereby all boys brought out and placed on provincial training farms should be assisted to start up as farmers, provided they could save \$500 out of their earnings. In this event the British and Canadian governments would put up \$2,250, and would ask the provinces to advance \$250 which, coupled with the boys' savings, would make a fund of \$3,000 which is considered to be ample to begin farming.

It is probable that the response of the provinces to this scheme will be enthusiastic and that a very big movement of boys will be inaugurated next year.

Serious Famine In Russia

Mobs In Moscow Are Openly Denouncing the Government

London, Eng.—Soviet Russia is in the throes of a famine which is reaching serious proportions, according to reports from Helsingfors and Riga, received by the Exchange Telegraph Company here.

Mounted police are patrolling Moscow and dispersing near-violent mobs whose leaders openly denounce the government, the Helsingfors report stated.

Foreign legations in Moscow were perturbed over the seriousness of the situation, although some, it is said, are disposed to welcome it because it affords them a legitimate reason for leaving.

In Leningrad similar scenes were enacted, according to the Riga report. There 750 women and children, after waiting in a bread line all night, were given apples. Angered, they used the apples to bombard the windows of food stores and threatened to lynch the food distributors. A large number were arrested and later released.

Spanish Royalty In London

London, Eng.—Queen Victoria of Spain, and her daughters, the Infantes Beatrice and Maria Christina, arrived here and were met at Victoria station by the King and Queen. The royal party will be the guests of Queen Victoria's mother, the Princess Beatrice, widow of Prince Henry of Battenberg.

Saskatchewan Leads In Grain Shipments

Peak Of Movement Passed In First Three Months Of Crop Year

Winnipeg.—Fully 65 per cent of the crop has been marketed since estimates have run around 530,000,000 bushels, and the railways have received 304 million bushels to date," is the report of J. G. Sutherland, superintendent of transportation for the Canadian Pacific.

"Saskatchewan is in the lead with 86,376,165 bushels dumped into elevator bins on Canadian Pacific lines. 79,073,723 bushels being wheat."

Manitoba has 53,144,225 bushels of all grains, including 19,530,015 bushels of wheat.

Alberta's marketings to date are 56,908,300 bushels all grains, 53,192,600 of which are wheat.

With such figures as proof, Mr. Sutherland holds the opinion that the peak of the movement has been passed in these first three months of the crop year.

Newfoundland Elections

Latest Returns Show That Government Has Been Defeated

St. John's, Nfld.—The opposition party of Sir Richard Squires overthrew the government of Hon. F. C. Alderidge in the general elections it became known when the results from twenty-nine of the thirty-seven districts had been received.

The election of the opposition candidates in St. John's City West and one opposition member in Durin West was conceded in the latest returns, while two seats in St. John's City East, and one in Durin East, were conceded to the government.

The opposition party has now secured twenty-three of a total of forty seats and nine government supporters have been returned.

Both Sir Richard Squires and Hon. F. C. Alderidge were elected. Sir Richard ran in Humber while Premier Alderidge contested St. John's City East.

Held Lucky Ticket

Quebec Bank Clerk Wins \$35,000 On Handicap

Quebec.—Fred G. Moore, 18, a clerk in the employ of the Imperial Bank here, won the first prize of the Army and Navy Veterans' pool on the Cambridgehire Handicap. His prize will amount to about \$35,000. He won the Palau Royal II, winner of the race.

Fred Graham, Pontypool, Ont., who drew Baytown II the pool, will receive about \$11,800 as second prize.

E. A. McLatchey, New Glasgow, N.S., holds the ticket on London in the placing third. McLatchey will get \$5,900, the amount of the third prize.

Remain In Canada

5,000 British Harvesters Still Remaining In Canada

Ottawa.—With harvesting operations completed in the west and with 5,000 British harvesters still remaining in Canada, it is probable that the majority will become permanently established, department of immigration officials stated today. Reports from membership companies to the department indicate that approximately 3,500 have returned to the British Isles.

From the fact that very few of the harvesters have applied at government employment bureau officials of the labor department believe that in the majority of cases they have found permanent work on western farms.

Eliminating Crow Pest

Campaign In Saskatchewan This Year Was Highly Successful

Regina.—The crow and magpie population of the province has been decreased by more than 1,000,000 as a result of the activities of 4,230 collectors for the 1500 prizes offered by the Provincial Department of Railways, Labor and Industries in the 1928 crow campaign, according to the report in the Public Service monthly issued for last month.

"The success of the competition may be gauged by the results which show that 465,953 eggs, and 681,716 eggs were collected. Actually, therefore, the enemy suffered a total loss of 914,669 before hostilities closed, September 1."

IMPORTANT ANNOUNCEMENT

Dr. Henry Marshall Tory, president of the national research council of Canada, who forecasts that at a gathering of bacteriologists in Ottawa, in the early winter an important announcement will be made concerning mankind's age-long fight against tuberculosis in animals, one of the deadliest scourges known, and one generally conceded the cause of a great deal of tuberculosis in human beings.

Brilliant Meteoric Display Predicted

Shooting Stars Will Be Seen From November 10 To 17

Montreal.—Meteoric displays of striking brightness are predicted to occur for a period lasting from Nov. 10 to 17 inclusive, according to an announcement from Harvard College University, received at McGill, by Prof. A. Vibert Douglas, lecturer in physics and secretary of the Montreal centre of the Royal Astronomical Society of Canada.

These displays, commonly known as shooting stars, will be seen in the northern sky south of the constellation of the Great Bear, better known as the Dipper. The shooting stars will be best observed after midnight until four o'clock in the morning, and will be seen as bright flashes across the sky.

Receives Prize For Research

London, Eng.—F. C. Banting, in receiving the Cameron prize for research at Edinburgh University, told how he discovered insulin. He was in London, Ont., when he read an article which so affected him he could not sleep that night and at two o'clock in the morning he was able to crystallize his ideas which led to his successful experiments.

Famine Stalks In China

Babies Being Killed On Account Of Lack Of Food

Shanghai, China.—The China international famine relief is being flooded with appeals from the stricken districts, particularly in Shensi, where, it is declared, "babies are being killed because there is nothing to feed them with and children are being sold for a mere song."

"Thousands of persons are said to be living on the bark and leaves of trees. In addition to Shansi the famine includes districts in Kwangsi, Szechuan, Hunan and Honan."

A magistrate of Yang Hsien in a letter estimates that there are 200,000 famines sufferers, owing to the drought and the devastations of the "Red Spears" a guerrilla organization. The situation in Shansi, the magistrate declares, is unprecedented, children being sold openly in the market by parents eager for cash. In Hunan thousands are on the verge of starvation, due to the banditry, communist uprisings, the Red Spears and drought.

Contractors Supply Stilts For Workmen

Innovation Of Toronto Firm To Eliminate Costly Scaffolding

Toronto.—As an innovation in the building trade, a firm of Toronto contractors provided six-foot stilts for their workmen. The plan was to do away with costly scaffolding.

Surprised and indignant at the plan, two workmen refused to don the stilts and reported to officials of the United Brotherhood of Carpenters and Joiners that they lost their jobs as a result.

William Varley, secretary of the Building Trades Council, is investigating to discover whether the use of stilts would be a contravention of city or provincial statutes.

Cities May Have Own Aerodrome

London, Eng.—An aerodrome in every city in Britain is the program put forward by the air ministry. Realization of the program depends on the city councils finding the money and therefore it will not be immediate. Manchester and Nottingham have already purchased land for aerodromes and Leeds, Hull and Liverpool are expected soon to follow their example.

Militia Officers Committed

Hamilton, Ont.—Three officers of the Third Canadian Machine Gun Battalion, one of whom is alleged to have drawn his sword on a police officer, were committed for trial by Magistrate Jells, on charges of assaulting two police officers who arrested them at the Thistle Club.

GRAF ZEPPELIN LANDS SAFELY IN HOME PORT

Friedrichshafen, Germany.—Completing the first round-trip commercial trans-Atlantic flight, the Graf Zeppelin landed at the aerodrome here with passengers and mail from America.

The airship, coming from Lakehurst, N.J., made the fastest crossing of the Atlantic by a lighter-than-air machine, covering a distance of 4,003 miles.

Since leaving Friedrichshafen on the morning of October 11, the Graf Zeppelin had flown approximately 10,000 miles. Going by the southern route on the westward flight, she flew 6,000 miles in 111 hours and 38 minutes.

The Graf Zeppelin arrived over her home port just 63 hours and 56 minutes from the start of her flight.

The ship thus established a new record for eastward flight by a dirigible across the Atlantic. The British dirigible R-34, in 1919, made the only previous eastward flight from Roosevelt Field to England in 75 hours.

It was revealed that the Zeppelin encountered heavy storms while flying over central France forcing Dr. Eckener to alter his course considerably, missing Paris. The speed also was reduced to less than 50 miles an hour.

With the approach of the dirigible the population of the town, swelled many times its normal size, was aroused by volleys of saluting shots. The people rushed pell-mell to the aerodrome, where the crews of the Zeppelin works were already assembled at the hangar. It was raining but there was no wind.

The airship, after allowing the cheering hordes of the population of her great form, rapidly passed out of sight and then reappeared a little later over Lake Constance. Throughout the town the church bells were ringing frantically and a cannonade of saluting shots was being fired constantly. Numerous searchlights played upon the silvery sides of the dirigible as it passed over the town.

Alberta Sheep Breeders

Officers Are Elected At Annual Meeting Held In Calgary

Calgary.—Officers elected at the annual meeting of the Alberta Sheep Breeders' Association, held in Calgary, were:

President, John Wilson; vice-president, William Haden; chief Katharine of her great form, rapidly passed out of sight and then reappeared a little later over Lake Constance. Throughout the town the church bells were ringing frantically and a cannonade of saluting shots was being fired constantly. Numerous searchlights played upon the silvery sides of the dirigible as it passed over the town.

Meetings of the directors of the Alberta Horse Breeders' Association and the Alberta Cattle Breeders' Association were also held.

Armistice Day Letters

Two Million Letters Sent To America From France

La Havre, France.—Two million letters, the largest mailing ever sent from France, have started to America on the French steamer Rochambeau. They are timed for delivery to American women about Armistice Day.

These letters, although advertising matter, have been turned to propaganda uses. They have been addressed by hand by French war widows and are sealed. The idea is that American women getting a letter from France on Armistice Day will think of the country where many sent their sons or husbands to war.

Heavy Mail By Zeppelin

Washington.—The Graf Zeppelin carried 101,683 pieces of mail back to Germany, for which the German postal administration will be credited with \$76,713 by the United States postal service. The mail, weighing about one ton, consisted of 49,745 letters and 51,938 postcards.

Princess Mary and Lord Lascelles are shown above at the doorway of their Fortuna castle, in Ireland, where they were welcomed on their recent visit. Shortly before their arrival the stables of the castle were set afire, apparently by a fanatic, but Lord Lascelles requested that no punishment be meted out to the culprit.

Lord Nelson at Halifax Opened

Above, the Lord Nelson viewed as from the Botanical Gardens. Inset is a very charming
corner of the lounge, showing the bust of Lord Nelson in the corner. Mr. E. W. Beatty
was the guest of honor on the formal opening.

E. W. Beatty, chairman and president of the
Canadian Pacific Railway, in speaking as guest
of honor at the banquet which marked the official
opening of the Lord Nelson Hotel at Halifax,
referred to the tourist attractions of Nova Scotia
as being second to none on the continent. "This
from as well travelled man as the head of the
World's Greatest Travel System was a decided ap-
preciation. "In addition to the opportunities for
sport which are unsurpassed and attract tourists
from both the United States and Canada, you have
the historic associations such as typified by the
Bungelino legend which the Canadian Pacific and
Dominion Atlantic Companies have successfully
preserved and featured. It seems to us only right
that the railway which came into existence as a
result of one of the terms of Confederation
should encourage such travel to your cities and
other historic places," he said. "That travel has
grown apace during the last few years and it was
because of this fact among others that at the soli-
tation of your business men we joined with them
in the building of this hotel. It is for the same
reason that we are building a modern hotel with
other tourist facilities at Digby."

The Lord Nelson Hotel, while operated under the
direction of the Canadian Pacific Railway is the
result of a sincere effort on the part of the people
of Halifax who have long been working for a modern
hostelry which would adequately take care of the
business which offered in the city. It is situated
in the heart of the city and fronting on the Botanical
Gardens that have helped to make this old city
famous.

Within and without, the appearance of the hotel
reflects great credit on its architects and builders.
In building and in decoration it is Georgian in
character, and throughout the hotel and particularly
in the public rooms, a most successful effort has
been made to express the period recalled by the
historic name associated with it. Immediately
inside the front doors is a handsome and spacious
lobby, which at once gives the keynote of Georgian
decoration. The hotel offices are here as also are

other public services such as elevator lobby, tele-
phone room, cigar shop, etc.

The mezzanine floor and ladies waiting room
leads up from this, and on one side of the lobby is
a short flight of steps leading up to the assembly
lounge. In this room and in the adjacent assembly
hall the attempt to recapture the atmosphere of
two hundred years ago has been particularly suc-
cessful. The chief feature is the fine fireplace over
which is an excellent copy in oils of the full length
portrait of Lord Nelson which was painted shortly
before his death. In one corner stands a fine copy
of the well known bust of this hero, and on the
center table is a splendid model of his ship "The
Victory."

The end of this room opens into the assembly
hall which is large enough to seat about 500 people
comfortably. At one end is an ample stage with the
usual dressing rooms and disappearing footlights.

Leading from the other side of the lobby up a
short flight of marble steps is a foyer, and beyond
that the main dining room. On the floor beneath
the lobby are a series of fine shops opening on the
street, and here also is the spacious grill, which in
keeping with the nautical flavour notable elsewhere
in the building, is termed "The Ward Room."

Its woodwork is of oak and its ceiling crossed by
beamed beams. It is lit by ships lanterns of brass
and by candelabra designed from binacle lights
and ships steering wheels. The furniture also is
of stout oak. Other features of this floor are a
barber shop, beauty shop and the usual public
services.

The bedroom floors include a number of fine
suites of which the Royal Suite is an outstanding
example. Like the other its character of decor-
ation is in keeping with the rest of the hotel. It
consists of sitting room, dining room and two bed-
rooms, and its furnishings include some fine exam-
ples of early Georgian. The bathrooms and general
plumbing and heating arrangements throughout
are up to the most modern standard as also are all
the facilities for public service.

At Royal Hotel, Stony Plain
Fri. & Sat, Nov. 9 & 10.

Stony Plain and District.

IT PAYS TO PAY CASH.

Monday next, Nov. 12th, is Thanksgiving Day and a public holiday. All business places in Stony Plain will be closed.

Walt and Milo, Nichols, of Edmonton, were visiting over the week end at their old home, north of town.

More reading matter in a week than any other Canadian farm paper in a month—the Family Herald and Weekly Star, Montreal. Only a dollar a year, or 3 years for \$2, now making wonderful improvements.

A last-minute notice was sent out last week, postponing the regular meeting of the Inga Councillors until tomorrow, Nov. 9th.

A number of local teachers will be in attendance at the convention of the teachers of this Inspectorate which will meet in Edmonton for two days, Nov. 9 and 10.

United Church Notes.

On Sunday, Nov. 11, the Pastor will preach from the text: "In all thy ways acknowledge Him." The service will be a Thanksgiving and Armistice service. Two solos will be rendered.

On Nov. 18 Dr F S McCall will deliver a special sermon to the local Masons. In addition to this address special vocalists are expected to assist the local choir.

Breaking and Entry.

Mr Thomas Fitzpatrick, the well known bachelor farmer, has a grievance. During the nights of Wednesday or Thursday, last week, some party or parties unknown entered his domicile and disrupted everything in sight or out of sight, peering into cupboards, prying open trunks, and invading the secret places. Tom is uncertain which night the depredations were committed; but as the first night mentioned was Halloween it may have been done by the boys of the neighborhood in their rounds of merrymaking. Mr Fitzpatrick was not able to give the matter, at the time, the attention it required, owing to some important business in Edmonton which needed his attention.

Beware the Footpads!

On Sunday evening about 8 Mr Louie Wudel was called to his door by a knock. On responding, the caller asked Louie to take a walk down the street, to a waiting auto, as a Mr Mueller wished to see him about renting his hall. Louie accompanied the visitor down the street a little distance, until he realised the story sounded fishy, as the gentleman mentioned had removed from Stony last summer. On hearing a mechanical click, like a revolver being cocked, he turned and beat it back to his home and notified the police. Corp. Moses responded, and followed the car tracks to the Grove where they were lost.

12—Thanksgiving Day.
14—Meeting of Stony Plain Women's Institute.
20—Peter Schultz Sale.
20—Milton's auction near Tomahawk.

Sale of Indian Lands.

The sale last Thursday of 14 quarters of Indian land north of the Grove, drew a good crowd of those interested, including an octette of speculators from the City. Auctioneer Dan Brox was in charge, and there was keen bidding for most of the land offered. Indian Agent Race was clerk.

The first put up was a quarter in 36—27—5; reserve price \$15 an acre; this was knocked down to Mr Wanger at \$35 an acre.

Practically all the good farm lands brought from \$32.50 to \$43 an acre; the latter price being paid for the Sw 27—27—4.

Twelve quarters in all were sold. Two quarters in section 4—27—4, on which the upset price was \$5 an acre, did not apparently appeal to anyone as being a good spec, as no bids were received. The Sna is informed that \$2 an acre was offered later for the two quarters, and that this offer was taken into consideration. Two local farmers who were present to bid on certain quarters, as these were adjacent to their present holdings, found keen rivals in the speculators from the City.

Deaths.

At Spruce Grove, Sat. Nov. 3d, Willie, (aged 10 months) son of Mr and Mrs Lonie Javorsky. The funeral took place Monday to the R. C. cemetery.

Edmonton Journal—The infant sons (twins) of Mr and Mrs E C Schadeck, 9517 108 av, passed away in one of the local hospitals Sat. Nov. 3.

7% is a good return on your money; so is a subscription to your local paper.

Inga Municipal District, NO. 520.

The Municipal District of Inga No. 520 will sell by Public Auction at Wudel's Hall, Stony Plain, on SATURDAY, NOVEMBER 17th, at 2 P.M., the following Tax Sale Land, subject to a reserve bid, which will be announced at time of sale:—

Secretary-Treasurer
M. D. of Inga No. 520.

Cleaning, Pressing, Repairing.

All Work Satisfactorily Done.

Mrs. W. G. Hopkins

West of Miller's Garage.

Spruce Grove News

There was a burglar scare at the Grove Sunday last between 2 and 3 a.m. Harvey Morrow was awakened by a noise like someone trying to force an entrance to his premises. Harvey arose from bed and made an investigation, on which the marauders departed precipitously.

Not much harm was done around the Grove on Halloween; but Mr Heeber, who farms east of town, has complained of the depredations done around his home lot. Chas Munton will hold a sale in Labor hall, Edmonton, Wed. Nov. 14, of farm lands and lots for the M.D. of Spruce Grove.

The new pavement in front of the Schwindt block is appreciated by those doing business at this end of the village.

Dan Brox is holding an important auction sale of stock and machinery for Peter Schultz, Tues. Nov. 20.

Duffield Doings.

Mr Pidgeon was in attendance on Monday at the hearing of the appeal in the Supreme Court of Wm J White against Inga Municipality No 520 and E H Pidgeon. This is the case Mr Justice Ford dismissed last spring.

M Mecklenburg, Optician, will again visit at the Duffield hotel, Duffield, on Wednesday and Thursday, Nov. 7 and 8.

Mr C H Milton's sale has been set for Tues. Nov. 20.

Notice to Threshermen.

Owners or Operators of Threshing Machines and Combined Harvesters are required to send to the Department of Agriculture at the end of the threshing season a return showing the number of acres and number of bushels threshed. This applies whether the machine has been used for custom work or only for the owner's crop.

Special forms for these returns may be secured from the

Publicity Branch,
Department of Agriculture,
Edmonton.

A SOLID FOUNDATION!

There is a solid foundation for U.G.G. good service. It rests upon

Long Experience Financial Strength
Good Organization Modern Equipment
and the large volume of business contributed by the thousands of farmers who make use of this Farmers' Company.
